# HOLDS UP CITY. MINE DISORDERS.

bination and Calls Upon Attorney-General Davies to Begin Prosecution.

Comptroller Grout came out against he trusts in a communication to Atterney-General John M. Davies, in which he charges that Chapter 600 of the Laws of 1899 has been violated by the "Metal

Ceiling Trust." He says: Chicago
"On April 29, 1902, a voucher was filed Tuesday. in this office by the Police Department in favor of Henry S. Northrup amounting to \$484 for metal celling furnished to the First Precinct Police stationhouse. Attached to the said voucher are found bids for the performance of the said work which were submitted by the New York Metal Ceiling Company, the Brooklyn Metal Ceiling Company, S. Northrup, all of whom presented the uniform bid of \$484.

from information obtained it would appear that the metal celling companies have formed a combination and have agreed among themselves to act as a unit in fixing prices for performing metal ceiling work.

"While the act of combining by the parties in question does not invalidate in any respect the contracts made by them with the city, and payment of the claim now on file in this office cannot be withheld, yet it is felt incumbent that your attention should be directed to the facts as herein recited as worthy of your consideration in enforcing a compliance with the provisions of said Chapter 690 of the Laws of 1899."

The local cotton market opened steady. agreed among themselves to act as a

CECIL RHODES'S WILL Provides for Proper Food for Students

Cecil Rhodes in his late will left a bequest of \$50,000 for the improvement of the high table for resident Fellows and tutors at Oriel College, Oxford.
"I am rejoiced to find that one

millionaire has at last given some thought to the question of dietetics in educational institutions," says Elizabeth Cady Stanton in the New York Journal.

"One of the crying evils in our schools, colleges and universities is the bad system employed in feeding growing boys and girls.

"Students, above all other classes need plenty of good, well-cooked food and a happy state of mind in an ticipation of their various meals. "Dyspepsia is one of the common diseases among the literary classes, and the foundation for this prevalent ailment is laid in our colleges and seminaries. Of what avail is a knowledge of art, science, philosophy and government when health is seriously

indermined? All this comes from ignorance as to the kind of food element the body must have to supply the daily loss from brain work. Bacon, meat potatoes, white bread and coffee absolutely will not keep a hard brain worker well. A food expert perfected a perfect food for brain workers. Not only in the schools but in the home should the food be looked after. The necessity of selecting food to

supply proper nutrition to replace daily waste of tissue of brain and nerves is of the greatest import-Grape-Nuts is the ideal food for

young and old who use the brain actively; the diastase of the grains being perfectly developed and the starch transformed into grape sugar in the most perfect manner.
In this condition, Grape-Nuts is

ready to be quickly absorbed into the blood and tissue without taxing the intestinal digestive machinery, phosphate of potash found i cereals is retained, and this, with alquired to build the gray matter in brain and nerve centres.
